

VERSAFLOOD™

STEEL AGGREGATE HOPPER CARS

FREIGHTCAR
AMERICA™

**FreightCar America's
VersaFlood all steel
aggregate hopper car
- *Purpose-Built* for the
aggregate industry.**

The VersaFlood aggregate open top hopper delivers the durability, reliability and load versatility demands of the aggregate industry. Available in transverse or longitudinal door configurations including the patented Automatic Independent Door System.

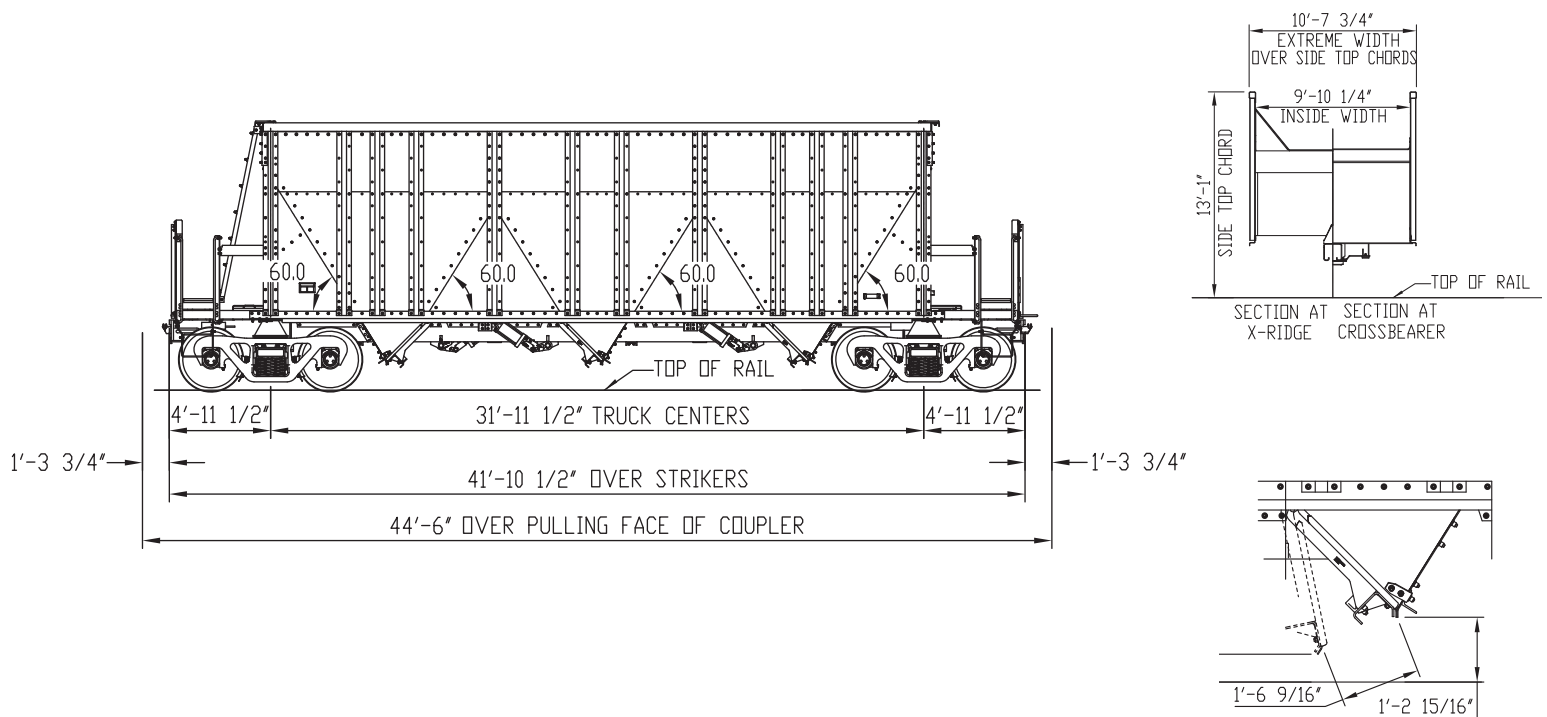

OTHER FEATURES INCLUDE:

- » Rugged design providing exceptional load capacity and commodity loading flexibility
- » Superior strength and durability of our patented one-piece, cold-rolled center sill and mechanically fastened sides and ends
- » Proven mechanically fastened design with reinforced top-cord corner supports
- » Available transverse or longitudinal unloading options
- » Automatic Independent Door System featuring an all-in-one, touch-pad control panel, allowing each door pocket to be opened individually or all at once

FREIGHTCAR AMERICA'S VersaFlood products are purpose-built to offer reliable and productive heavy-haul transportation options tailored to your needs.
