

5,800-CUBIC-FOOT COVERED HOPPER

LIGHT-DENSITY BULK PRODUCTS

This versatile car is re-engineered to increase capacity, incorporating the latest design and manufacturing techniques for a high-quality, reliable railcar.

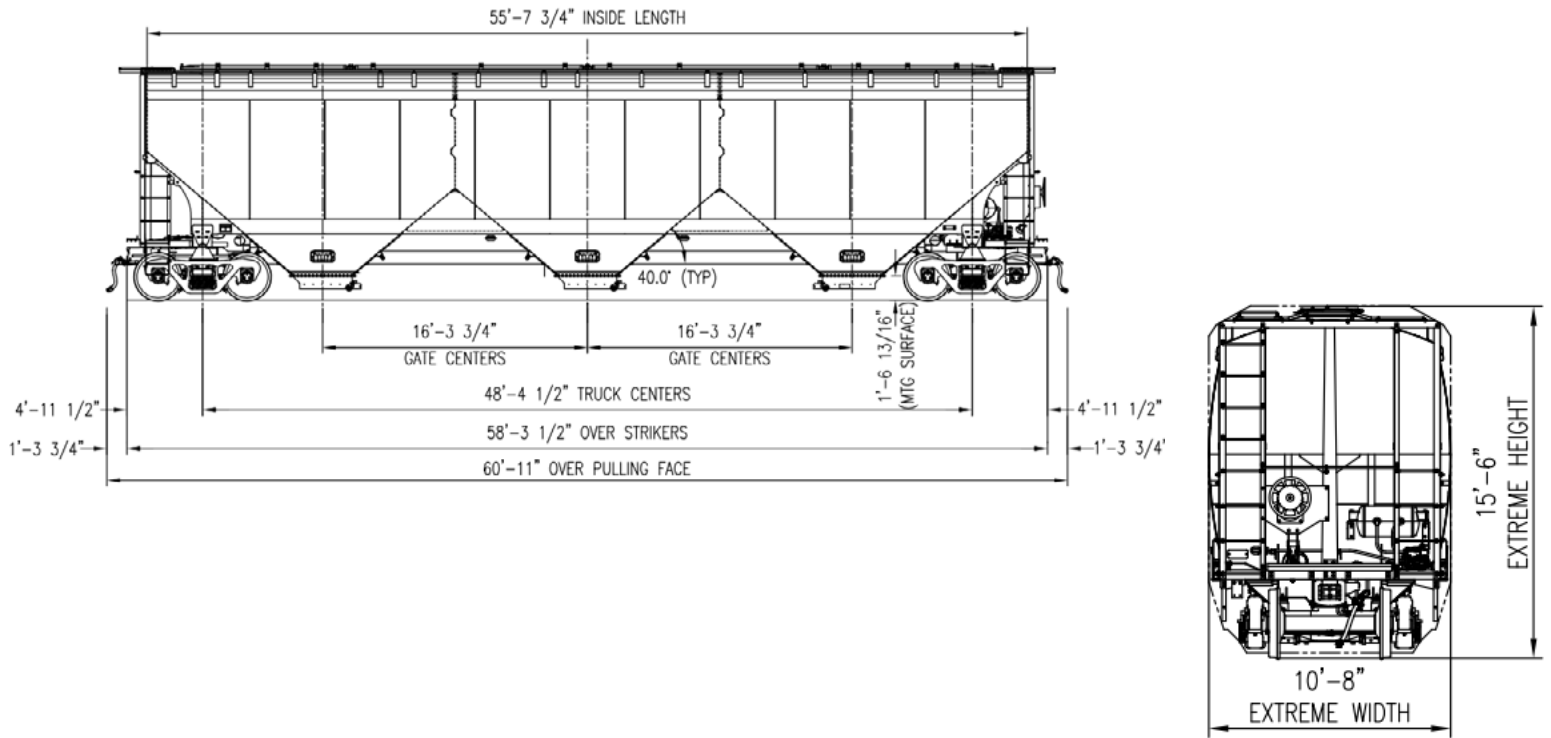

It features FreightCar America's patent pending fabricated center sill, one-piece longitudinal hood, welded curved side and curved roof. This car also incorporates industry-standard trough hatches and discharge gates.

MULTIPLE TROUGH COVER AND GATE OPTIONS AVAILABLE TO MEET SPECIFIC LOADING AND UNLOADING NEEDS.

FREIGHTCAR AMERICA'S Covered Hopper products are purpose-built to offer reliable and productive heavy-haul transportation options tailored to your needs.
